Pixie Hollow Facts

Life as a fairy in Pixie Hollow is pretty special. Learn more about their flitterific world!

A fairy is born from a baby's first laugh! The laugh travels to Pixie Hollow's Pixie Dust Tree, and with a sprinkling of pixie dust, it transforms into a fairy.

The fairies' clothes are "designed by nature". They're made from flowers and other plant materials.

Without the aid of pixie dust, fairies can fly no more than a few feet. It's Terence's job, as a dust-keeper sparrowman, to measure and distribute the fairy dust each day.

Fairies spend much of their time working to bring the seasons to the human world, which they call the Mainland.

Just like no two snowflakes are alike, no two fairies' wings are alike. Or so we thought... Tinker Bell and her frost fairy sister, Periwinkle, have identical wings.

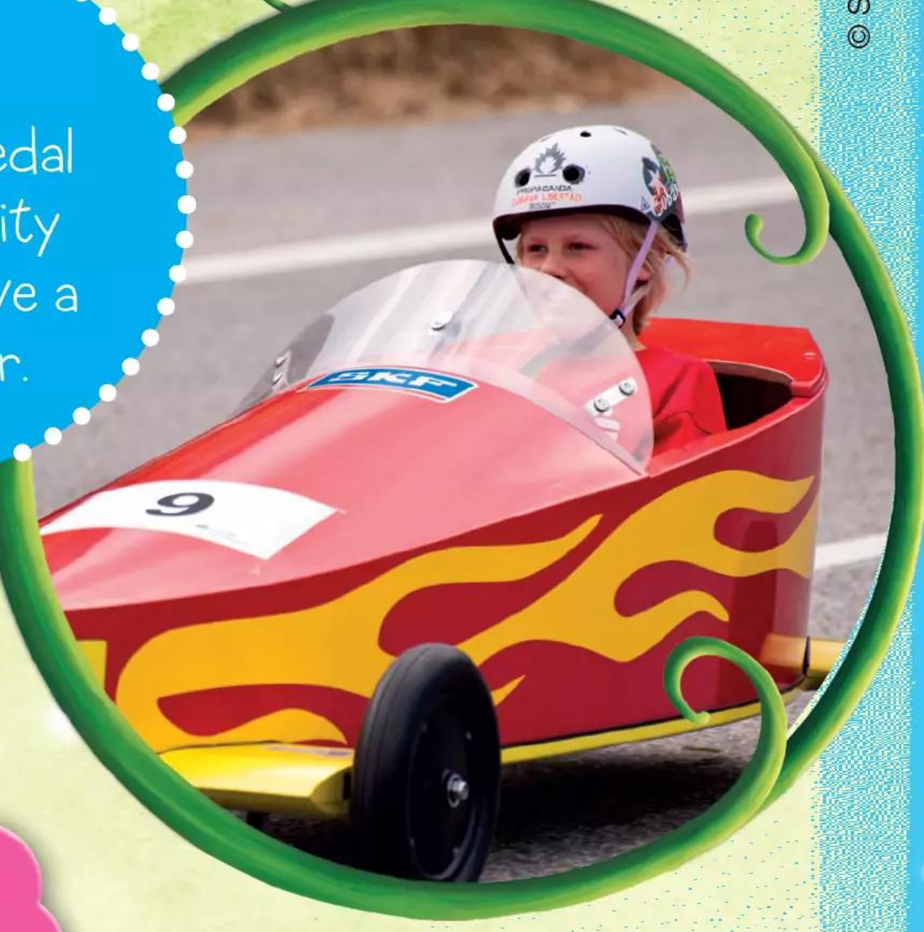
Cars For Kids

Tinker Bell likes to build vehicles that can drive fast. Kids on the mainland like to build cars, too! Kids' auto races began in the U.S. and now they take place all around the world. Some countries even have national championships!

Soapbox races are not all about speed, they are also very much about the look of the car. Funny designs that make the cars look like hotdogs, horses or sharks have been seen roaming the streets.

Kids' cars can be pushed, pedal driven, gravity driven or have a small motor.



Draw the design of your own soapbox car!

Top Tip:
Cool bright colors and flames are popular!
